FOOTBALL TRITON T16

The Cawila LIGA TRITON match football combines innovative technologies for exceptional play quality. The Thermo-Bonded technology ensures optimal shape retention and durability. The FLIGHT STABILIZER provides stable flight characteristics and excellent pass accuracy.

The 16 structured panels made from high-quality PU microfiber give the ball outstanding grip and precise ball control. The laminated rubber bladder inside ensures high pressure resistance, maintaining the ball's optimal air pressure for a longer period.

A special highlight is the enhanced playing feel that this football offers. The textured microfiber component, combined with foam and grooves, provides a comfortable touch and improved control. The Cawila LIGA TRITON is therefore the ideal choice for demanding players who value quality, fairness, and excellent playing properties.

This football proudly carries the Fairtrade certification, meaning it is produced under fair working conditions.

LIGA JERSEY TROLLEY | EQUIPMENT TROLLEY

The Cawila LIGA jersey trolley is the perfect solution for athletes and teams who want to transport their equipment safely, neatly, and efficiently. With a thoughtful interior layout and durable design, this trolley has everything needed for training and matches.

- **Flexible compartment layout:** The interior is divided into up to 5 adjustable compartments, allowing jerseys, shorts, socks, and goalkeeper equipment to be neatly organized.
- **Additional storage space:** A zippered pocket in the lid provides space for small items, ensuring nothing gets lost.
- **User-friendly trolley function:** With the extendable handle, the trolley can be easily pulled – even when fully loaded.
- **Durable and lightweight design:** Made of high-quality aluminum, the jersey trolley combines long-lasting construction with a weight of only 8 kg.
- **Dimensions:** 65 x 43 x 31.5 cm

Whether for football, handball, or another team sport – the Cawila LIGA jersey trolley is the ideal companion for every occasion. Transport your sports equipment conveniently, protect it optimally, and always keep it organized! Storage compartment in the lid with a zip closure.

LIGA TEAMMATE FIRST AID KIT

The Cawila LIGA TEAMMATE first aid kit is the ideal choice for sports clubs, coaches, and athletes who prioritize fast and reliable first aid equipment. With compact dimensions of 70 x 25 x 30 cm and a weight of only 4.5 kg, this aluminum case is easy to transport.

- **Flexible main compartment:** The case features a freely adjustable main compartment, allowing you to organize your first aid equipment individually.
- **Holder loops for cold spray:** Practical holder loops ensure that important items like cold spray are safely stored and quickly accessible.
- **Removable bottle carriers:** The side bottle carriers are removable and can each hold 3 drink bottles.
- **Sturdy construction:** Made from aluminum, the first aid kit is stable and durable.
- **Foldable compartment inside:** An additional foldable compartment inside offers more storage space and ensures organized storage.
- **Robust design:** The case is equipped with strong, lockable metal locks, and the reinforced corners provide added stability.

LIGA COORDINATION LADDER

The LIGA coordination ladder is an essential training tool for athletes looking to effectively improve their running coordination, sprinting, and game speed. Thanks to its thoughtful design, it not only provides intense training but also promotes self-awareness and precision in movement.

- **Reflex-controlled learning:** Missteps are immediately noticeable due to the semi-circular crossbars, leading to an automatic correction of step sequences. This optimizes movement sustainably.
- **Robust and flexible construction:** Made of bend-elastic special plastic, the ladder is durable and withstands even intense training sessions.
- **Easy transport and storage:** With its quick setup and folding function, the ladder is extremely practical and ready for use at any time.
- **Consistent field spacing:** The evenly spaced rungs (internal dimensions approx. 40 x 40 cm or 30 x 40 cm) ensure precise and effective training.
- **Number of fields:** 9
- **Material:** Special bend-elastic plastic

LIGA GOAL REDUCTION

The Cawila PRO Goal Reduction is a practical solution for adapting soccer goals to the smaller stature of children and youth players. The reduction sizes are 3 x 0.4 m and 5 x 0.33 m, allowing for age-appropriate gameplay. The included quick-release straps make it easy and fast to attach the reduction to existing goals with dimensions of 3x2 m or 5x2 m.

IGLOO LATITUDE 52 | 49L

The Latitude 52 is a spacious cooler, ideal for vacations or use by a large group of people. The cooler has a capacity of 49 liters (85 cans) and is equipped with 3-layer environmentally friendly Thermecool™ insulation, ensuring the contents stay cool for a long time. The lid features 4 built-in drink holders, so chilled beverages are always within reach. The Cool Riser Technology® reduces contact with the often warm surface, further extending the cooling time. The Latitude 52 also features fold-down handles on the sides, making it easier to carry or unload.

Product Details:

- **Size:** 63.4 x 38.6 x 37.0 cm

IGLOO LATITUDE 30 | 28L

The Latitude 30 is a sturdy and stylish cooler with a capacity of 28 liters (41 cans), perfect for daily lunches or outings with a small group. Its tall design allows wine bottles or 2-liter bottles to be easily stored upright. The lid features 2 built-in drink holders, keeping chilled beverages within reach. This height also makes the cooler a great option for a potential seating spot. The Cool Riser Technology® minimizes contact with the surface, ensuring excellent cooling performance when combined with the environmentally friendly Thermecool™ insulation foam.

IGLOO LATITUDE 16 | 15L

The Latitude 16 is a compact cooler with a capacity of 15 liters, perfect for daily lunches or outings with a small group. This small cooler has a stable, elongated shape, allowing small bottles to fit upright inside easily. The Cool Riser Technology® minimizes contact with the surface, ensuring excellent cooling performance when combined with the environmentally friendly Thermecool™ insulation foam. The handle easily folds into the lid of the cooler, keeping it out of the way. The lid also features 2 cup holders for keeping your drink within reach. Inside, there are draining channels to conveniently pour out melting water.

IGLOO PLAYMATE ELITE 15L

The Playmate Elite is the largest cooler in the Igloo line, with a volume of 15.2 liters, capable of carrying up to six 1.5-liter bottles. The food and drinks stay optimally chilled for up to 24 hours thanks to triple insulation. The patented lid system, designed like a tent roof, allows for easy opening in two directions with the press of a button. The lightweight material makes it ideal for one-handed carrying. With its large capacity, the cooler is perfect for family beach days, as a companion on construction sites, and for coaches in high-contact sports.

Product Details:

IGLOO PLAYMATE PAL 6L

The Igloo Playmate Pal has a 6.6-liter capacity, making it the ideal size for physiotherapists or team doctors during sports competitions. The triple insulation keeps the contents optimally chilled for 10 to 24 hours, ensuring all-day first aid support. The lightweight cooler features the iconic tent-roof design on the lid, which can be easily opened with a press button. Due to its low weight, the Playmate Pal cooler is also perfect for transporting food and drinks to the office or for picnics.
